MORE CASES AGAINST AHLGREN

Swede Was Bound Over on Thursday for Burglary.

Atlanta, March 9.—Oscar Ahlgren, the Swede who arrived in Atlanta a week ago, and who has since been prowling around in private residences, it is said, having been arrested on Tuesday afternoon by Call Officers Luck and Coker, in the second story room of former Sheriff J. J. Barnes', Sr., 283 Whitehall street, was bound over by Recorder Broyles for two cases of burglary—one for having entered the home of Mrs. C. Fred Slate, Saturday night, and one for entering the home of Mrs. Elizabeth J. Mitchell, Tuesday afternoon. Bail in each case was assessed at $500, which Ahlgren was unable to give.

Mrs. Slate testified that she discovered Ahlgren, Saturday night, on the second floor of her home, and that he dodged her and hid in the bath room; that she subsequently saw him creep down the steps, open the front door and leave, and then she called Wilbur Owens, a boarder, who ran after him with a pistol and made him return to the house. He stated that his name was Burrows, and that he was looking for a room; that he was drinking, and rather than be arrested would deposit a cash collateral of $5 as indemnity for anything he might be suspected of having stolen. The offer was accepted, and Ahlgren deposited $5 with Mrs. Slate, returning for it Sunday afternoon. He did not get his money until Thursday, however, as he took to flight the moment Mrs. Slate stepped to the telephone.

Ahlgren was also identified by Mrs. Mitchell and her 17-year-old granddaughter, Miss Janie Gwinn, into whose home, it is charged, he had sneaked Tuesday afternoon. Miss Gwinn met the man in the second-floor hallway, and held him up at the point of a pistol, but Ahlgren is a smooth talker and manged to escape without being shot or arrested, only to be captured a few hours later while rummaging around in J. J. Barnes' home.

Several photographs of Ahlgren were taken at police barracks, and Bertilon Expert Nye will take his measurements, which, together with the photographs, will be sent to the national bureau of identification at Washington, D. C.

Five Negroes Were Killed.

Moultrie, Ga., March 9.—Five negroes, employees of the Union Pinopolis saw mills, were killed in a wreck near the Sunset mill, and many others are seriously injured. The train consisting of flat cars, was backing out and the negroes were on the front car. A pine tree had burned across the track in a sandy place and was not noticed until too late to prevent the very disastrous wreck. Several white men were on the engine, but none was injured. Several of those injured, it is thought will die. There were sixty men on the wrecked train and the fact that the list of fatalities was not greater is all but marvelous. The survivors at once set to work rescuing the dead and injured from the wreck.

Poisoned by Strawberries.

Valdosta, Ga., March 9.—A. C. Nurney, of this city, came near dying from poison caused by eating strawberries, followed by a dose of medicine, which was taken for indigestion. An hour or so after the strawberries were eaten he was taken deathly sick, and a physician was summoned. He was soon unconscious and remained so for quite awhile. The physician worked all night long, and in the morning before he was certain that the patient would live.

INTO HER HEART WOMAN PUT BULLET

Mrs. Latham, American Artist, Kills Herself In Paris.

TROUBLE WAS THE CAUSE

She Killed Herself Just After a Person She Had Been Painting Had Left—Mrs. Latham Was Formerly a Miss Lockwood, of New York City.

Paris, March 9.—Mrs. Natalie Dole Latham, who was a Miss Lockwood, committed suicide by shooting. Mrs. Latham was an American, and was known here and in New York as a portrait painter.

Mrs. Natalie Dole Latham lived in New York in 1905, when she had a studio on West Forty-Second street.

Mrs. Latham killed herself in her apartments in the Rue Viete. She fired one shot from a five-chambered revolver into the region of the heart, which caused instant death.

A person, whose name the authorities will not disclose, and who it is believed had been sitting for a portrait by Mrs. Latham, had just left the studio when the shot was fired. This person heard the shot from the stairs and returned at once to the apartment, accompanied by the janitor of the building and a policeman.

Mrs. Latham was found fully dressed, lying across a bed. She was dead. A small stream of blood was issuing from her breast.

Upon a desk near at hand was a short note, which read:

"I do not accuse any one of my trouble. I take my life voluntarily. I desire to be cremated. Inform my father and friends."

Mrs. Latham had lived for nearly two years in Paris. She occupied a handsome apartment, owned an automobile, and was well known in society, where her musical and artistic talents were greatly appreciated. She had made a specialty of portrait painting.

It is reported that, some time ago, Mrs. Latham's father had requested her to return to America, but this she refused to do, because she desired to continue her studies here.

WRECK COMING; WRECK GOING.

Inspection Train on Georgia Railroad Meets Them Both Ways.

Milledgeville, Ga., March 9.—Every one who has suffered either as passenger or freight shipper on account of delays is wearing a smile at the expense of the old reliable Georgia railroad.

It seems there is out from Augusta an inspection train carrying prominent officials of that road. When they went to Macon they came across a freight wreck at Brown's crossing and on their return trip they were cut off by the wreck of ten freight cars near Mayfield, due, it is reported, to spreading rails.

It is said Editor Bowdry Phinizy is not with them to point out and specify the weak places, but the trip will hardly prove uninteresting because of his absence if the first day's experience continues.

Interviewed the Sultan of Turkey.

London, March 9.—The Daily Mail displays conspicuously an interview with the sultan of Turkey. The monarch on being congratulated on his apparent good health, said that he never felt better. He expressed a wish for a continuance of the long standing friendship between Great Britain and Turkey. He referred to the case of Fehim Pasha, ex-chief secret police, who was exiled at the behest of the German ambassador, saying that he felt there had been an infringement of his personal dignity inasmuch as it had been pressed upon him personally although it was a matter entirely of Turkey's internal concern. The interviewer found the sultan keenly interested in world politics, kindly toward the Jews who he believed are to play a great part in history and possessed of a great faith in the future of the Turks and especially if they are due to the Koran.

GEORGIA MAN IS GUILTY OF FRAUDS

R. L. Vickers Is Convicted In Florida of

DEFRAUDING UNITED STATES

Vickery, It Is Maintained by the Government, Entered Into a Colonization Scheme, Using Negroes as Alleged Tools—Released on Bond.

Pensacola, Fla., March 9.—R. L. Vickers, a wealthy man from Tifton, Ga., was convicted in the federal court of conspiracy to defraud the government out of lands. He was released upon a thousand dollar bond and a move will be made for a new trial. The case was stubbornly fought from start to finish.

Vickers, it was maintained by the government, entered into a colonization scheme, using negroes as alleged tools. He is said to have procured about 100 families of negroes and he had them brought to Washington county, Florida, where they homesteaded lands, and Vickers' testimony showed that he was to pay costs and receive for his trouble the naval stores products from such lands.

A heavy penalty is attached to conviction. An appeal will be taken.

The defendant claims Tifton as his home, but has resided in Macon, and is said to have relatives in the city of Atlanta, Ga.

Failed to Find Verdict.

Wallace, Idaho, March 9.—The jury in the trial of Steve Adams for the murder of Fred Tyler, after being in deliberation since 11 o'clock Thursday forenoon, announced through the foreman, Mr. George Ellerd, that it was impossible to agree upon a verdict and was discharged by Judge Woods. The jury for many hours stood at seven for conviction and five for acquittal, and it was only on the last ballot that the jury stood evenly divided, six for conviction and six against. Judge Woods thanked the jury for its patience and diligence in service after the foreman declared positively that it was impossible to reach a verdict and declared them discharged.

Archie Roosevelt's Condition.

Washington, March 9.—The condition of Archie Roosevelt, the president's son, who is suffering from a severe attack of diphtheria, was more encouraging Friday morning than at any time in the last 18 hours, though the patient is still in a very critical condition. The physician's report Friday morning was that Archie Roosevelt had a good night, and his condition is most gratifying. The president has been with the patient frequently, exercising the same precaution as the physician as to the infection."

Held For Burglary.

Jacksonville, Fla., March 9—Three young white men have been arrested here on a charge of burglary, one of them being the son of a well known real estate dealer of this city, who, by chance, got mixed up in bad company. The home boy is Alvin Tidd, and the other young men give their names as Brown and Guidem, of New York. Two charges of breaking and entering have been lodged against the men. Brown told of the robberies, and surrendered a portion of the goods secured.

Woman Kills Her Brother.

Beaumont, Tex., March 9.—Saying in a joking manner: "I'll throw this cup at you; no, I'll shoot you," Mrs. Gus Gelleck raised a rifle and pulled the trigger of the supposed empty weapon and the loaded gun discharged its contents into the neck and head of her 15-year-old brother, Hoyt Sherman, inflicting wounds from which he died. The boy resided 5 miles north of this city.

Cancel Annual Boat Races.

Philadelphia, March 9.—The University of Pennsylvania has cancelled the annual boat races with the Annapolis Naval Academy because the two institutions could not settle on a date for the races. The races have been a fixture since the early eighties.

THE WINTER CHAUTAUQUA.

Saturday's Work Was a Marvelous Success.

The Chautauqua Saturday was a marvel, when it came to entertaining the crowds. The morning session opened with the school of physical education with an address by Mrs. Adams. At 10 o'clock Prof. Brown delivered his usual Biblical address, when the school of health and cooking was put on at 11 o'clock.

At the afternoon session there was a lecture on the subject, "Doubts and Doubters," by Dr. James A. Patterson of Columbus, Ohio. This lecture was well received.

At 4:30 p. m. there was an organization of a camp of Seton Indians under direction of Miss Grace Lampkin of Chicago, head medicine woman, and of which there will be more said in future. Miss Lampkin has secured the services of the school boys and school girls, and already has more than 150 enlisted, which means a great thing.

In the evening the audience was entertained by the series of moving pictures by the American Vitagraph, assisted by the Montauk Lady Quartette.

There will be services this evening, which will be of a union nature, as the churches usually hold union services at the Tabernacle Sunday evening.

Mr. Emerson's Condition.

The condition of A. H. Emerson, who was injured in Micanopy by a railway a few days ago, has been reported much better, and his friends are gratified to learn of this improvement.

Mr. Emerson, in this accident, was the victim of serious injuries, having sustained a broken collar bone and fracture of some ribs; but he was confidently recovered that his physicians now declare him out of danger, and he is expected to be out in a few days.

This building will be erected according to the plans and specifications prepared by Barber & Klutz, architects, of Knoxville, Tenn., and will be modern and up-to-date.

Letter to H. S. Graves, Gainesville, Fla.

Dear Sir: The cheekiest fraud in all paint is paste paint. Here's one: Lawyer Arley B. Magee, Dover, Del., painted his house four years ago with paste paint at a cost of $44 for paint and $61 for labor; total $105. The house got shabby in two years; then he painted Devoe at very little cost: $18 for paint and $30 for labor; total $48. (Paste paint $105; Devoe $48.)

It is like fattening hogs on milk ¼ milk. Paste paint is ¼ whitewash.

Yours truly,

An alarm of fire was turned in from box 28 Saturday morning at 11:50, which summoned the department with its usual promptness to the barn of E. Baird, in the rear of his home on North Pleasant street.

The barn was well in flames when discovered. It is a large building, and before the department arrived was in leaping flames.

The damage was about $600, including the value of a quantity of hay, grain, etc., which the owner had stowed in the place.

The firemen were faithful in their duty, and as a reward Mr. Baird presented them with a check for $25 for their efficient services, which were appreciated.

Mr. Baird will rebuild the barn at once.

NEWS OF CITY AND COUNTY CONDENSED

James Adamson has returned from Live Oak and other points, where he has been on business for the past few days.

If you are interested in Gainesville and Alachua county send a copy of the Industrial Edition of The Sun to a friend in the North. Price ten cents.

Quite a long list of patients from different parts of Florida, as well as from several other States, are now in Micanopy under the treatment of Dr. L. Montgomery.

Attorney F. Y. Smith of Alachua was in the city yesterday. Mr. Smith is not only a clever fellow, but one of the brightest young lawyers in the country, and is bound to make a reputation some day.

W. D. Holder and son, Austin, of Santa Fe, were in the city yesterday, and made The Sun an agreeable call, Mr. Holder renewing his subscription. Mr. Holder states that he is building a new home at Santa Fe, which will be one of the best in that section. The home will be two stories, eight rooms, and in all will be a modern country residence.

The "Hon." Augustus Waters, a leader in the Republican forces among the colored people, has announced that there will be an open meeting, with "open doors," of the voters of the city in Rising Sun hall next Monday night. There will be no sentinels at the doors, and no one to challenge those qualified voters who desire to attend, irrespective of politics.

Indigestion, constipation, headaches, nervousness, as well as all eye troubles, are quickly overcome by the drugless system of treatment practiced by the eminent Eye and Nerve Specialist, Dr. E. H. Armstrong of Jacksonville. Cross-eyes are also straightened without pain or operation. The Doctor makes regular visits to our city in person and will be here again on March 11th, and may be seen as usual at the Brown House.

The G. W. Hyde Company have an advertisement in this issue which is of especial interest to the ladies, as it contains announcement of their great millinery opening, which will occur on March 19th and 20th. There are quoted prices on all lines also that will prove of interest to prospective purchasers, and should be noted. This firm has established a tremendous trade in this section of the State, and promises this season to eclipse all former efforts in bargains offered. Read the ad.

Hon. W. A. Strickland of Paradise was in the city yesterday. Mr. Strickland reports the death of his brother-in-law, Chas. W. Little, which occurred in Plant City on Saturday of the past week of pneumonia. Deceased was about sixty years of age, and was born and reared in Alachua county. He is survived by his wife and three sons, John, George and Wesley, and one daughter, Miss Ruth Little, all of Plant City. Friends of the family extend sympathy to the bereaved relatives.

Perhaps no system of treatment for the relieving of human ills has made as great headway as that practiced by Dr. E. H. Armstrong, the Eye and Nerve Specialist of Jacksonville. Many cases in this locality which had been given up as incurable have been cured permanently by this drugless system or treatment. If you have any chronic disease or eye trouble, the opportunity should not be missed of consulting Dr. Armstrong on his next professional visit to our city, March 11. He may be seen in person at the Brown House.

Card From Mayor Thomas.

Editor Sun: I understand there has been some adverse criticism of the action of the City Council, by which they sold to me, for the sum of one thousand dollars, the building formerly used as a barrack by the East Florida Seminary, some persons claiming that the building is worth more money, and will bring more money at a public sale.

When the City Council was considering the purchase of the barracks lot, I went before them and guaranteed that this building should bring the sum of one thousand dollars. After the purchase of the lot by the city, and the matter of sale of the buildings was again being considered, I suggested to the council that the buildings should be sold at public out-cry. Members of the council objected on the ground that they did not believe the buildings would bring that sum if sold in that manner, and that I should make my guarantee good. I agreed to do so, but it was against my judgment, as I thought, and still think, that all public property should be sold at public sale.

Now, in order that the city may have the opportunity of receiving the supposed value of these buildings, I will sell them to the highest bidder for cash, at the office of W. W. Hampton, secretary Board of Public Works, on March 20, at 10 o'clock a. m. Sealed bids may be sent to W. W. Hampton, secretary, or H. F. Dutton, president, of the Board of Public Works, or may be brought by bidder, in person, and delivered to W. W. Hampton at the hour named. Such bids will then be opened in the presence of the bidders, and the buildings awarded to the highest bidder. Should the buildings bring more money than the $1,000 paid by me to the city, I will pay such excess into the city treasury; and the incident will be closed. Very truly,

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Lagrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.

Gorton's Minstrels.

Gorton's Famous Minstrels were at the opera house last night, and showed their usual ability in a professional line.

Notwithstanding that it was Saturday night, a night when it was impossible for many of our people to attend, the house was fairly well crowded, and those present were highly pleased with the work of the artists.

Gorton was always a favorite here, and Saturday night was no exception.

HIGH SCHOOL NOTES.

Preparation Begins for Commencement—Other Interesting Notes.

(By The Sun's Special Correspondent.)

The work of the sixth month has started off well. The laggards are beginning to realize that they will have to make good use of the remaining time, or be left behind next year by their more studious class-mates.

The discipline of the school grows gradually more rigid from week to week, and there is noticable a constant improvement in the general order and spirit of the school. In fact, it is doubtful if there is a school in the State where a better school spirit exists. The perfect harmony existing between the principal and the teachers, and the firm support given the principal by the Board of Trustees, the county superintendent and school board, has in a large measure contributed to bring about this desirable state of affairs.

The attention of parents is called to a regulation passed by the county school board at its last meeting to the effect that pupils absenting themselves from school without valid excuse for as many as three times in one week or five times in any month shall be subject to suspension.

The High School is already beginning to prepare for commencement, which promises this year to be quite an interesting affair. The Juniors organized last Friday, and the Sophomores and Freshmen will organize this week. The principal announced that only pupils taking full courses could be admitted to membership in class organizations. The irregulars will have to form a class to themselves, or be left out in the cold. Several new "class yells" will probably be heard on the campus soon.

The Junior class this year is composed of ten as fine boys and girls as can be found in any school in the State.

There will be one regular graduate this year, the first in the history of the school, and a finer young lady never graduated from any school. Gainesville High School is fortunate in heading its list of alumni with such a promising "first fruits."

The Euclean Society held last Friday one of the most interesting meetings of the session. The Demosthenean will have to wake up, if they keep up with the Euclean.

There was a tie between the Fourth, Fifth, Sixth and Eighth grades for the honor banner this month. It was settled by assigning the banner one week to each, beginning with the Fourth. When it was announced that the Fourth grade had at last come in among the winners the whole school gave them a rousing round of applause.

We have had an interesting run of "special numbers" at chapel exercises this week. Recitations by little Harry Merchant and Annie Dorsey, and music by Marion Manasse.

The High School Glee Club will be organized next week. This club will prepare some good High School music for commencement. The club will contain a number of good voices.

The Juniors have served notice that they are in the contest for the banner this month, and in to win.

Chapel exercises at 8:15. We would be glad to see our parents and friends occasionally.

The Eighth grade has a flourishing and enthusiastic literary society that meets every Wednesday afternoon. The Euclean and Demosthenean will have to look to their laurels. There are some fine debaters in the Eighth grade.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by all druggists. 50c and $1.00. Trial bottle free.

The Family Physician

The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Do as he says.

We have no secrets! We publish the formulas of all our preparations. J. C. Ayer Co., Lowell, Mass.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs.

It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female sysem. It is an excellent remedy for derangements of the Kidneys in either sex.

SERMONETTES

BY J. MARVIN NICHOLS.

Nature does not lead any man into crime.

Generally speaking the sensational is always degrading.

A man with a real purpose in life can never be satisfied.

Did the notion ever strike you to turn out of the common road?

It takes a heap better man to live a theology than it does to make one.

You're an optimist if you believe in the fall of man—and that he has fallen upward.

There is a vast gulf between money and mammon. The first is right; the latter, wrong.

If the dents in the brain are evidence of its use, then some men's brains are as smooth as glass.

Dig for your coin, and dig hard—that's all right. But be the master of your dollar, not its slave.

Do your part to lift the whole race a notch in the scale of humanity—then, your heaven will take care of itself.

In that age when wealth becomes the standard measure for greatness, then money will be the world-power.

"Elocution" and "electrocution" are just about one and the same—at least for the fellow that sits in the chair.

Because New York's police force captured 193,856 criminals last year is no sign they put the biggest and most dangerous rascals in the hock.

I know some saints who pray and believe in His blessed keeping, and then make a dive for the storm-cellar every time the clouds have a little fracas.

Desire no greater mark as the sign you ever lived save that which appears in the works that follow after you are dead. They linger like the after-glow of a sun long since gone down.

This country will continue to have her Cripple Creeks, her California mines, and her Klondikes, but after all the American farm will always be the fountain source of American wealth.

You can't see beyond yourself. When the world looks all jagged and twisted to you, you need to be run in for repairs. If that don't do any good, the next best—throw yourself in the scrap pile.

After all, a whole lot of rich men are saving human barnacles—their fellowmen—from professional hoboism. The trick is to put them in a position in which they have about as much qualification "as a tabby cat has for a fracas with a Bengal tiger."

A certain writer divides reformers into three classes: first, those who live for partinent results; secondly, those driven by necessity ar revenge; and thirdly, those who make a living out of it. Of the last, the world in these latter days is greatly burdened.

Some men are too cowardly to pull up the anchor and face the open sea. You can't make progress when you drag the anchor. The flukes will hold somewhere and you'll rock idly in a placid haven. Storm or no storm, turn toward the boundless deep. That's infinitely better than the ceaseless and unchanging harbor.

This is the golden age for the young man. And its an age whose every call is a "specialty" awaiting fitness and competency. This country never saw the time when she was so deeply plunged in such volumes of industrial expansion. The natural result—a shortage of men. Oh, yes; the world has more men in it—that's true; but the number of competent men has not kept pace with the ever-enlarging field of industrial opportunity. A Senator recently declared that the tie-up of traffic all over the country is not due so much to car-shortage as to the lack of competent men to handle trains. The standing army is short of men until there are three guns to the man. A great cry of shortage is heard from the navy. The postal department is facing serious problems. Man-shortage is a new disease in the industrial world. It marks an era of unparalleled prosperity. It is the clarion call to get ready. It stamps the man as worse than a fool who says that in this age the young man has no chance. The trouble is there are more chances than there are men.

In Destitute Condition.

Sydney, N. S. W., March 9.—The crew of the Oceanic steamship company's steamer Sunoma, which, on Jan. 31 were sentenced to a month's imprisonment at hard labor for disobeying of the lawful demands and thereby delaying the vessel's departure for San Francisco, a crew of non-unionists were shipped are in a destitute condition, following their release from prison, as they forfeited the wages due them. The seamen have appealed to the premier of the Nw South Wales and to the American consul general here, but they both refused to help the seamen, the consul holding that his instructions only permitted him to grant assistance to ship-wrecked men.

G.B.Burhans Testifies After Four Years

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J. W. McCollum & Co.

Appeals from Decision.

New Orleans, March 9.—Attorney General Guion, who was recently directed by the Governor of Louisiana to assist in the prosecution of Congressman-elect George K. Favrot, or the killing of Dr. Harry Aldrich, has filed an appeal from the decision of Mr. Favrot's successor on the bench with the supreme court of this state. The indictment against Judge Favrot was quashed by Judge Bruno on the ground that the grand jury returning a true bill was not legally constituted.

Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of The Herald, Addington, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by all druggists.

Agree on New Wage Scale.

New York, March 9.—The Franklin association of press feeders and the Typothetae agreed on a new wage scale Thursday averting the threatened strike in book and job offices. Wages of the feeders on cylinder are raised from $14 to $16 a week of 54 hours, until Jan. 1, 1909, when the eight hour work day will go into effect. Wages of feeders on Web pressed are referrd to an arbitration committe.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

Need Not Shave Negroes.

Hartford, Conn., March 9.—The supreme court of the state has just handed down a decision to the effect that the barbers in this state ned not shave negro men. The decision was reached on an appeal from a superior court decision in Bridgeport by Henry E. Foulkner, a negro man, who brought suit against Thomas Soulazzi, a barber of that city. Soulazzi refused to shave Foulkner, his defense being that his barber shop was not a place of public accommodation within the meaning of the law. The supreme court upholds that contention.

Worked Like a Charm.

Mr. D. N. Walker, editor of that spicy journal, The Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed; the salve simply healed the wound." Heals every sore, burn and skin disease. Guaranteed at all drug stores. 25c.

Capture Due to Bravery of Girl.

New York, March 9.—The resourcefulness and bravery of Miss Katherine O'Brien, niece of John Fox, president of the Manhattan club, was due to the capture by the police of a burglar who had prepared a bundle of silverware and other valuables worth about $1,000, and was ready to leave the Fox residence in East Fiftieth street.

CLARK ON HEARST.

Representative Frank Clark, recently, in the House, made a bitter attack upon newspaper and magazine accounts of peonage in this State, which, he said, were wholly untrue, unfair and unjust. In this connection he referred to the several publications owned by Representative William R Hearst of New York, and quoted a telegram from the Governor of Florida characterizing as incorrect a statement attributed to him in a magazine.

In referring to these newspaper accounts, Mr. Clark said:

"To deal with a 'muckraker' is always unpleasant. It is at no time agreeable to engage in disputation with that product of our present-day civilization known as 'yellow journalism,' which for a few pennies and an opportunity to keep in the limelight does not hesitate to calumniate an entire community. It is disagreeable because of the fact that the creature in question is generally so lacking in character and so bereft of the essential attributes of real manhood, that he will resort to any and every form of falsehood to bolster up his original libel. In submitting to this House and to the American people the few remarks that I shall make upon the subject of 'peonage in Florida,' as treated in a recent article in The Cosmopolitan Magazine for March, 1907, and partly copied in The New York Evening Journal of February 25, 1907, I know that I shall bring down to my humble self the relentless fury of the owner of these publications, who happens to be a member of this body, but who I do not believe has occupied his seat for 10 full days during the entire life of the Fifty-ninth Congress. But, be that as it may, I would be unworthy of the high and honorable position I hold if I should silently sit here and permit a member of this body, either from his place on this floor, or through the columns of his publications, to slander and malign my people."—Tampa News.

It is probable that the University of Florida will be substantially remembered by the Florida Legislature. A liberal appropriation could be used to advantage, and it would be appreciated by all friends of higher education throughout the State.—Palatka Times-Herald.

The University at Gainesville, and the Female College at Tallahassee, should both receive substantial appropriations from this Legislature. When the Buckman bill was up for consideration at the last session the cry of its advocates was that Florida had more State institutions than she could properly provide for, but that with only two, enough money could be spent on them to make them great institutions. To say the least, the Legislature ought to give to the two institutions a sum of money equal to that given to all of of them heretofore.—Pensacola Journal.

In regard to the opposition to State uniformity of text books we want to ask the opposers a question: Suppose that Prof. H. A. Ferrell of Fernandina, Prof. Thomas McBeath of Gainesville, and Prof. Lynch of Jasper, were constituted a board to select a list of text books for Hamilton county and they should do so, why would not the list of books thus selected for Hamilton county be a good list of books for every county in the State?—Jasper News.

OUR SCHOOLS.

If you have anyone in your employ you want to know how he is getting along with your work. You are not satisfied as a business man or woman to allow your dollars and cents to go toward paying that employe without occasionally seeing how he works, and if he is doing the most possible for your interest; neither are you satisfied with what you hear others say, and especially if the reports are adverse to what you would like to hear. Now what about your school? There are those there whom you employ, and the task you intrust to them is a responsible one. You say, what would you know about it if you visited the school? You could tell whether or not the children were attentive and seemed intent on their work. You could tell whether it was all pray or not. You could have the pleasure of seeing your child's eyes light up with pleasure at your presence.

CALL FOR CONVENTION.

Tallahassee, Fla., March 6, 1907.

To the Members of the Boards Public Instruction:

Gentlemen—In accordance with paragraph 2, section 46, page 19, of the Digest of the School Laws of the State of Florida, I hereby call a Convention of County Superintendents and other school officials to be held in the city of Tallahassee, April 17-19, 1907.

As this will be one of the most important conventions of school officials ever held in Florida, it is imperatively necessary that every county be represented. I, therefore, earnestly recommend and urge that each Board of Public Instruction defray the necessary expenses of the county superintendent and at least one member of the Board of Public Instruction and one High School principal while in attendance upon this convention.

Should any Board of Public Instruction decline to make an appropriation whereby proper representation can be had, this department will be of the opinion that such Board of Public Instruction is not desirous of having its county stand in the forefront of modern educational progress.

A program of the convention, together with full information concerning the same, will be sent out at a later date.

Please advise me at your earliest convenience what your board has done looking to a proper representation from your county.

Very truly,
W. M. HOLLOWAY,
State Supt. Pub. Inst.

Bill Barlow gave a good little story in his last Sagebrush Philosophy. He makes Tommy the Tough say a thing that tells a great big secret. She had been explaining to her Sunday school class the origin of man as laid down in Genesis, and wishing to satisfy herself that they understood, she said: "Johnny, who made you?" Johnny stammered and was unable to answer—evidently he hadn't been able to grasp the essential detail of Divine creation as explained. The question, however, when put to Tommy the Tough who sat beside him, brought out this reply: "Gwan now, teacher—cut it out. There's been trouble enough at home over that without startin' suthin' here—see!"

In a sense, there is no such thing as a free gift. We pay for all we get. Even when free we rightfully expect the fullest returns in the coinage of the heart. And, like Prometheus, were we to steal fire from the altars of the gods they would still let us feel and think, but the Olympians would chain us to a rock.

Some folks have brains that operate just like a sifter in a flour-mill—everything good goes on through and the trash stays behind.

THE NEWS FROM ARNO.

Interesting Batch of Notes From That Thriving Little Village.

Arno, March 9—The weather is fine, season good, farmers all about ready to begin planting corn, oats are looking well. The prospects for a large fruit crop are fine, especially peaches. F. P. Henderson's orange grove is white with bloom.

There was a stranger wandering around here Thursday all day. From his actions he seems to be of unsound mind. He wandered around aimlessly but would stop every few steps and look carefully all around like he had lost something, and would even get on his knees and scratch around on the ground. He was first seen lying with his head across the rail on the railroad just before train time. He was bare headed. Paul Henderson gave him a hat, but he soon lost it and came back and Paul gave him another. He said he was an Irishman from Jacksonville, and that the people there and all along the road had been trying to kill him with guns. He left in a great hurry late Thursday, going toward Bell.

Miss Reta Clark is home from Bell, where she closed her school several days ago.

The Arno Y. P. S. C. E. met at the home of P. B. Clark Wednesday evening and elected Misses Reta Clark and Lessie May, Alford Clark and Mrs. Rosa Pierson as delegates to go to the State Christian Endeavor Convention, which meets at Lake City April 5th. Mr. and Mrs. F. P. Henderson will go also and represent both the Arno, and the High Springs Societies, as they belong to both. Mrs. Wm. Futch, Mrs. Young, Mrs. Hodges, G. E. Thompson and Miss Lila Thompson were also elected delegates to go from the High Springs Society.

Rev. E. T. Allen will preach at Forest Grove Sunday.

Mr. and Mrs. F. P. Henderson leave for Gainesville this morning to attend the Farmer's Institute.

MOTHER AND BABE FALL 40 FEET

Mrs. DeWees, of Winder, Is Perhaps Fatally Hurt.

Milledgeville, Ga., March 9.—Mrs. DeWees, wife of Rev. Dewees, pastor of the Baptist church at Winder, and her 2-year-old boy, fell from the unprotected overhead crossing of the Georgia railway, to the tracks of the Southern railway 40 feet below, while transferring from a Central of Georgia train at Macon.

The passengers and crew of the Central of Georgia train carried both mother and child to the train above and they were taken on to Gordon, where Mrs. Dewees' parents live.

The babe appeared but slightly injured and Mrs. Dewees may live.

The 4-year-old boy accompanying them did not fall. The carelessness of both companies was so apparent that indignation ran high among the passengers.

London, March 9.—The Madrid correspondent of the Telegraph says that as a result of inquiry he confirms all the accounts given by the Havana Diario de la Marina, of the alleged bribery of the United States senate to declare war on Spain. THE NEWS FROM MELROSE.

Interesting Budget of Local and Personal Affairs From That Village.

Melrose, March 9.—An "al fresco" luncheon was given on Thursday by Mrs. J. A. Remmel and Mrs F. M. Tolles to a large number of friends in the fine oak grove belonging to Keystone cottage. The grounds were prettily decorated with many flags, and the two long tables were covered with a profusion of yellow jasmine, and the delicious refreshments served were much appreciated by all present. During the dessert Messrs. Remmel, Tolles and Whitehead entertained the company with stories and recitations, causing a great deal of amusement, and just before rising from the tables all joined in singing "Auld Lang Syne." During the afternoon some played at cards, croquet or lawnbowls, while others enjoyed the fine music rendered by Mrs. Remmel on the mandola. Altogether it was a most enjoyable function.

Newly registered at the Huffman House are Mrs. E. M. Marshall, Cannonsburg, Pa.; Mrs. E. Cook and Miss V. Templeman, York, Pa; Dr. Elna Warden, Petosky, Mich.

The regular session of the town council on Tuesday did not take place, no quorum being present.

The mayor's court had a short session on Friday, resulting in an addition to the town treasury.

H. Jackson and L. M. Baldwin have joined forces in the building of a fine pleasure boat of the motor launch type. The boat will be 32x7½ feet with a 20-foot cabin, the motive power being an 8½ horse-power double cylinder gasoline engine. The vessel is well on her way and no doubt will be finished in time to give her owners and friends a royal good time on the lakes during the summer.

THE HEALTHY STOMACH.

"We Never Know We Have a Stomach Unless Something is Wrong With It."

When you begin to realize that you have a stomach, it means that this organ is not in good condition, and it is reminding you of the fact.

Do not feel discouraged and miserable because of the presence of indigestion. It is the best thing in the world for you if you can only see it and give the stomach proper treatment.

Change the weak stomach to a healthy one by using Mi-o-na stomach tablets. This remedy is not a mere digestive, giving only temporary relief, but a combination of remedies that actually strengthen the stomach, excite the secretion of gastric juices and enable the digestive organs to care for food you eat in a natural, normal way.

By taking a Mi-o-na tablet before each meal you can enjoy a good dinner without distress and suffering, and you will never know that you have a stomach.

J. W. McCollum & Co. have sold a good many 50c boxes of Mi-o-na stomach tablets, and the more the remedy is used the more friends it has, for every box gives satisfaction. It is sold under an absolute guarantee that the money will be refunded should Mi-o-na fail to give satisfaction. J. W. McCollum & Co. take all the risk, and the remedy will cost you nothing unless it cures.

Southern Pig Iron Advances.

Birmingham, Ala., March 9.—Southern pig iron has made a further advance in prices, spot iron in small lots commanding $21 per ton for No. 2 foundry. This is one dollar per ton above the market quotation, which has been prevailing for some time. The smaller manufacturers are driving an active business on immediate delivery iron in small quantities, the larger concerns having sold their production many months in advance.

Legislator Is Arrested.

Boston, March 9.—S. John Lamoureaux, of North Adams, Republican in the legislature from the second Berkshire district, was arrested on an indictment returned by the Suffolk county grand jury, charging him with corruptly requestion and accepting a gratuity. The indictment consists of four counts that Lamoureaux received $180 from William H. McMasters.

A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

S.S.S. PURELY VEGETABLE

Not only is a medicine valuable for its ability to cure disease, but the way in which it affects the system is a very important factor. When the system is infected with the germs of disease as in Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., every particle of its recuperative strength is needed to assist in eliminating the poisons and impurities which are causing the trouble. It should not be dosed and treated with strong mineral mixtures and concoctions that further add to the burden, by disagreeably affecting the bowels, producing indigestion, or eating out the delicate linings and membranes of the stomach. The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons for its being now the most widely known and universally used blood medicine on the market. It is made entirely of healing, purifying roots, herbs and barks of the forests and fields. These are selected for their well known curative properties, and are known at the same time to possess the qualities to build up and strengthen every part of the system by their fine tonic effect. Not only is S. S. S. the king of blood purifiers, but it is the one medicine that may be taken with absolute safety by young or old. We guarantee it non-injurious and offer a reward $1,000 for proof that it contains a particle of mineral in any form. S. S. S. is a safe and reliable treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and any and all diseases arising from a poisoned or impure state of the blood. It goes to the very bottom of these troubles, removes every trace of disease, enriches and builds up the blood and permanently cures where mineral medicines fail. If you are suffering with any form of blood disease write for our book on The Blood and ask for any medical advice you may desire; no charge for either. THE SWIFT SPECIFIC CO., ATLANTA, GA.
